This foundation was formed in the spring of 2007 for the sole purpose of raising charitable funds that could be distributed to Madera High School, Madera South High School and Matilda Torres High School, equally. Once raised, these funds would be distributed to the schools' athletic programs via their respective athletic booster clubs. It will be the booster clubs' responsibility to allocate the funds to the individual sports programs as they see fit.

Our goal is two-fold. First, we hope that FAN will provide funds necessary to alleviate the fundraising burden from the coaches, thereby allowing them the time and energy to focus on coaching their teams to victory.

Second, we realize that with three high schools, local businesses will be overwhelmed with requests for financial support for all three schools. Madera F.A.N. hopes to alleviate "support burnout" or "support bankruptcy" by providing a method of donation that will equally assist all three schools in obtaining their fundraising goals.

Should a business donate a substantial amount to FAN, it will receive a window decal to display, indicating that the business supports the three schools, equally. It also indicates to team members, coaches and parents who are trying to raise funds for their individual sports programs that the business has already donated a substantial amount of money and that they are not to solicit that business in person. However, those individuals are still free to receive solicitations by mail and e-mail FAN is not attempting to block teams from soliciting donations from a business, it is just trying to alleviate the large amount of person-to-person solicitation a business might receive.
